I hereby verify that the owner(s) listed above are qualified to hold mineral rights in Alaska per the requirements of AS 38.05.190, and as of the date above, a location notice was posted on the monument at the NE corner of this claim and to the best of my knowledge, in accordance with applicable statutes and regulations.

1. Owner/Agent: _____

2. Owner/Agent: _____

Agent's Name: _____

Attach an extra sheet for Additional Owners and Signatures

The information provided on this form is made a part of the state public land records and becomes public information under AS 40.25.110 and 40.25.120. Public information is open to inspection by you or any member of the public. A person who is the subject of the information may challenge its accuracy or completeness under AS 40.25.310, by giving a written description of the challenged information, the changes needed to correct it, and a name and address where the person can be reached.

This Amendment corrects the document originally recorded as:
Document No. _____ OR Book/Page _____

Discovery Date: _____

Posting Date: _____

Size of Location:

☐ Full Quarter Section (160 acres)

☐ Quarter-Quarter Section (40 acres)

Recording District: _____

Complete Legal Description:

Meridian: _____

Township: _____

Range: _____

Section: _____

Quarter Section: _____

Qtr-Qtr Section (if 40 acres) _____ of _____

Excludes:

Location Sketch:

(See instructions on reverse site.) A separate black & white map, at a scale of 1:63,360 (one inch = 1 mile), is to be provided showing the dominant physical features, the section lines, and to the best of the locator's knowledge the relationship to other mineral locations, mineral orders, and non-state land.

☐ Attached to this certificate

☐ Attached to the certificate for the following locations:

Location name or number

ADL, if Available _____
Receipt Type: 80

GENERAL INSTRUCTIONS (“DO NOT RECORD THIS SIDE”)

If you have questions, please contact the Mineral Property Management Office at 907-269-8642 or dnr.dmlw.mpm@alaska.gov

Assistance is also available for the use of Alaska Mapper (<https://mapper.dnr.alaska.gov>)

Important: Amending a mining claim may only be done if there are no conflicts with other claims (AS 38.05.200). If DNR’s records indicate a conflict, the amendment will be rejected. This form is to be used as an amendment to the original **CERTIFICATE OF LOCATION** to be filed with the District Recorder’s Office for the area in which the MTRS claim is located. This form should *only* be used for mining claims or mining leasehold locations that are located under Title 38 of the Alaska Statutes on land under the jurisdiction of the State of Alaska. This form may also be used as a LOCATION NOTICE to be posted on the northeast corner monument (corner #1). Please note that locations on land selected by, but not yet conveyed to, the State are made at the locator’s own risk. AS 38.05.275, 11 AAC 86.115(a). *For information about mineral locations under federal mining law, please contact the Bureau of Land Management.*

Posting the Amended Location Notice: Where this form is used as an amendment to the original LOCATION NOTICE on the northeast corner monument, it *must* contain a sketch map of the claim which depicts to the best your knowledge the location of the claim in relation to the surrounding mineral locations. The AMENDED LOCATION NOTICE must be posted on monument #1 located at the northeast corner of the claim.

Please note that AS 38.05.196(b)(1) states, “A locator may locate a claim based on the ground location of a complete quarter section or quarter-quarter section of a township on a rectangular survey system approved by the commissioner; a claim established in this manner may be known as a meridian, township, range, section, and claim system location, or MTRSC location; a locator using the MTRSC system to locate a claim shall in good faith mark the corners of a location as closely as practical to the existing quarter section or quarter-quarter section of the rectangular survey system approved by the commissioner; the corners marked on the ground of a claim established in accordance with this paragraph and regulations of the commissioner control in the event of a conflict over boundaries for the quarter section of quarter-quarter section of the protracted or actual survey approved by the commissioner”.

Recording the Amended Certificate of Location: *When this form is used as an amended LOCATION CERTIFICATE, it MUST contain ALL the information requested on the front of this form including the original document number, unless otherwise noted. You are to attach and record a **black & white** map at an indicated scale of 1:63,360 (one inch = one mile) or a more detailed scale that shows the boundaries of the claim or leasehold location, the dominant physical features of the land, the surveyed section line or, if unavailable, the protracted section lines surrounding the location, and, to the best of the locator’s knowledge, the relationship of the location to adjacent or contiguous mining claims, leasehold locations, mining leases, prospecting sites, mineral orders, and non-state land; if the locator is simultaneously recording contiguous locations, a single map showing all locations may be attached to one of the certificates of location and that certificate must be cross-referenced on each other certificate of location to which the map applies. The map must be no larger than 8 ½” x 11” and must include a scale and a direction (North) arrow. You must complete the statement at the bottom of the front of this form.*

To record the AMENDED CERTIFICATE OF LOCATION with the State of Alaska, submit the original AMENDED CERTIFICATE OF LOCATION to the District Recorder’s Office for the area in which the claim is located. If mailing to the recorder’s office, check with the office beforehand so you can submit the correct fee. The recording fees change from time to time. **You may check on recording fees and recording offices through the internet at the following site address:** www.alaska.gov/ssd/recoff/. The recorder’s office will forward copies of all recorded mining documents to the Alaska Department of Natural Resources, Division of Mining, Land & Water.

Failure to properly complete either the amended location notice/certificate may constitute abandonment of the mining claim. AS 38.05.265. Failure to timely record the amended location/certificate with the proper district Recorder’s office constitutes abandonment of the mining claim. AS 38.05.265.
