This Supplemental Questionnaire is required if the proposed activity includes use of explosives.

Designated Material Site ADL:	Material Sale ADL:	Date:	
I. Certified Explosives Handler Information			
Explosives Handler Name:		Phone Number:	
Trade Name or Business Name, if any:			
Mailing Address:			

A certified explosives handler must be authorized under all applicable federal, state and local laws or regulations to possess, transport, store and use explosives of the type used on the Project. Please provide all applicable certification or license number(s):

Will the certified blaster be on site and responsible for all aspects of explosive transport, storage, and blasting activities? \Box YES \Box NO

II. Location Information

Where is the material site located?

A sketch of the material site and approximate location of blasting area is required. Has a sketch been included with this supplement?
Supplement?

III. Local Infrastructure

Notice must be provided at least 30 days prior to blasting to all occupied structures within one mile of the blast location.

Are there any occupied structures within one mile of the blast area? \square YES \square NO

Is the blasting area within 1,000 feet of any dwelling, school, church, institutional or public building or within 500 feet of any active or abandoned underground mine?

YES
NO

IV. Local Waterbodies

Are there any waterbodies or anadromous waterbodies within one-half mile of the blast area? \square YES \square NO

If yes, consult the Alaska Department of Fish and Game, Habitat Section to determine if a habitat permit is necessary.

V. Blasting Plan

Attach a blasting plan that includes

- Sketch of the drill pattern, delay periods, and decking.
- Indicate type and amount of explosives to be used.
- Describe and locate the structures to be protected.
- Specify the design parameters used and describe how these will protect the public and meet all applicable airblast, flyrock, and ground vibration standards.
- Indicate blasting schedule including operating hours for blasting, hours per day, times per day, number of blasts per day, and specific areas.
- Describe plan for providing photos of blast area before and after each blast.
- Describe plan for providing 30-day and 24-hour notice of blasting to all individuals living or working within one mile of the blast area.
- Submit a Safety Plan that includes descriptions of road closures, warning signals, and plans for notification of affected local, state, and federal agencies. Discuss in the Safety Plan methods for protection of life and health, public and private property, new work or existing work on the project, nearby structures, wetlands, waters, and wildlife.
