Re: Minor Amendment Request to 20209852POO

FGMI requests a minor amendment to the existing Plan of Operations (POO). The purpose of this amendment would be to expand the current Organic Matter Topsoil Stockpile #5 to the larger footprint of the proposed Organic Matter Topsoil Stockpile #5. We anticipate that this proposed minor amendment will have minimal impact on the reclamation and closure plan and will not result in a significant cost difference upon closure. For your reference, please see Figure 1, which depicts our currently permitted Organic Matter Topsoil Stockpile #5, in comparison with Figure 2, which shows the proposed expanded Organic Matter Topsoil Stockpile #5.

Thank you for your attention to this matter, please let me know if you have any questions.

Sincerely,

Cassandra Fetters
Environmental Specialist
