

Pre-Permitting Environmental / Socio-Economic Data Report Series

---

# Report Series G- Trace Elements (Vegetation, Fish, Mammal & Mussel Tissue)

## Report G-1 Freshwater Fish Tissue Results Summary 2004-2007

*Submitted to the Alaska Department of Natural Resources February 2009*

*Preliminary data. Do not cite or quote.*

The Pebble Partnership is providing environmental and socio-economic baseline data collected to inform the development of the Pebble Project to state and federal agencies, project stakeholders and the general public prior to project permitting as part of its commitment to full and open disclosure.

A comprehensive Environmental Baseline Document (EBD) will subsequently be prepared and appended to future project permit applications. The EBD will also be made publicly available when complete.

Collected for the Pebble Partnership by:

HDR Alaska  
2525 C Street, Suite 305  
Anchorage, Alaska 99503

	<b>Key:</b>	<b>Bold Results</b> = Parameter undetected by test, value shown is 1/2 MDL or 1/2 MRL.																
		If result was not detected at the lab MDL, the value shown is 1/2 MDL.																
		If result was validation flagged U or UJ, the value shown is 1/2 MRL.																
		<b>Green Results</b> = Estimate result reported by laboratory below reporting limit (MRL).																
		MDL = Method Detection Limit.																
		MRL= Method Reporting Limit.																
		NA = Not Applicable.																
		Note: All results reported on dry weight basis, except total solids reported on wet weight basis.
