Dear Ms. Nichols,

The State of Alaska requests the BLM consider the submitted draft Recordable Disclaimer of Interest Application for the Arolik River as the final application with the addition of the USFWS report WRB 00-02 Arolik River Navigability Report by Warren Keogh. The BLM provided this report to this office electronically, so it is known to be in the BLM's record for the Arolik River RDI application file. The state will post this report to the state's RDI website in association with the Arolik River RDI Application.

Please contact me if you have any questions.

Sincerely,

A handwritten signature in blue ink, appearing to read "JH Walker".
