Re: Recordable Disclaimer of Interest Application for Chilkat River

Dear Mr. Bisson,

The State of Alaska files this application for a Recordable Disclaimer of Interest for the lands underlying the Chilkat River, pursuant to 43 CFR §1864.

The application is submitted for all submerged lands lying within the bed of the Chilkat River between the ordinary high water lines of the left and right banks, and all interconnecting sloughs of the Chilkat River, beginning at the Alaska/Canada International border within Township 25 South, Range 56 East, Copper River Meridian, Alaska, downstream to all points of confluence with Chilkat Inlet within Townships 30 and 31 South, Range 59 East, Copper River Meridian, Alaska. A map highlighting the river, and a legal description of the townships and ranges underlying the river are enclosed. As previously discussed with the BLM Alaska State Director, the State requests a waiver under §1864.1-2(d) of the requirement of 43 CFR §1864.1-2 (c)(1) for a description based on a public land survey or certified metes and bounds survey because the map and legal description included here clearly identify the land subject to this application.

A recordable disclaimer of interest in this land will help lift the cloud on its title stemming from the lack of any permanent determination of ownership for most submerged lands in Alaska. Because the Chilkat River is navigable, Alaska owns the submerged lands by virtue of the Equal Footing Doctrine. Under the Equal Footing Doctrine, new states created from federal territories are admitted to the Union with all the powers of sovereignty and jurisdiction that pertain to the original states. Upon admission of a state to the Union, the title to lands underlying navigable waters within its boundaries automatically passes to the state as a matter of constitutional grace. The lack of any title document or judgment creates a cloud on the state's title.

"Develop, Conserve, and Enhance Natural Resources for Present and Future Alaskans"

AA85444

Where the state is the owner of the uplands adjacent to Chilkat River, the state owns the bed of Chilkat River even in the absence of a navigability determination. In such circumstance, the state took title under the Equal Footing Doctrine if the water is navigable, or if it is non-navigable, the state gained title as a matter of state law governing riparian rights. Under state law, where the land bordering a non-navigable body of water is ceded, title to the submerged lands passes to the upland owner unless the intent of the grantor is expressly stated to the contrary. Therefore, where the state is the upland owner, the BLM may approve the state's application for a Recordable Disclaimer of Interest for the bed of the waterbody based on the state's ownership of the adjacent uplands. In such areas, a navigability determination is not required.

The Bureau of Land Management's own formal determinations confirms evidence of the navigability of the Chilkat River. On June 3, 1980, the BLM determined that the Chilkat River was navigable in T. 30 S., R. 58 E. and T. 30 S., R. 59 E., Copper River Meridian to the Alaska/Canada border. On August 11, 1982, the BLM determined that the Chilkat River was navigable in selected areas and on January 5, 1984, BLM affirmed their earlier determinations that the Chilkat River was navigable. A June 13, 1984 BLM review affirmed navigability determinations for T. 30 S., R. 59 E. and T. 30 S., R. 58 E., Copper River Meridian, and a March 7, 1985 review confirmed the Chilkat River was navigable in T. 30 S., R. 58 E., Copper River Meridian, Alaska.

The state is unaware of any adverse claimant or occupant of these lands.

The state agency responsible for this application is the Alaska Department of Natural Resources, Division of Mining, Land, and Water, 550 W. 7th Avenue, Anchorage, Alaska 99501, Attention Robert Loeffler, (907) 269-8600. The State hereby authorizes BLM to bill the State's account \$100 for the application fee required by regulation.

Sincerely,

Tom Irwin
Commissioner

LEGAL DESCRIPTION

The Chilkat River within the State of Alaska, more particularly described as follows:

All submerged lands within the bed of the Chilkat River between the ordinary high water lines of the left and right banks, including all interconnecting sloughs of the Chilkat River, beginning at the Alaska/Canada International Border within Township 25 South, Range 56 East, Copper River Meridian, Alaska;

Thence southerly and easterly, generally within the following townships of the Copper River Meridian as determined from USGS 1:63 360 series topographic maps Skagway (C-3) 1954 (minor revisions 1963); Skagway (B-3) 1954 (minor revisions 1963); Skagway (B-2) 1954 (limited revision 1977); Skagway (A-2) 1954 (limited revisions 1977); the precise river location may be within other townships due to the ambulatory nature of the water bodies:

Township 25 South, Range 56 East;
Township 26 South, Ranges 55, 56 East;
Township 27 South, Range 55 East;
Township 28 South, Ranges 55, 56 East;
Township 29 South, Ranges 57, 58 East;
Township 30 South, Ranges 57, 58, 59 East;
Township 31 South, Range 59 East;

To the terminus, being all points of confluence with Chilkat Inlet within Township 30 South, Range 59 East; and Township 31 South, Range 59 East, Copper River Meridian, Alaska.
