

# MANAGEMENT UNIT 2N

## *Tatalina River Valley*

### MANAGEMENT INTENT

**General.** State land in this unit is retained in public ownership for multiple use management. The emphasis is on maintaining fish and wildlife habitat. Soils in this unit are generally poorly drained, and resource values, except for habitat, are low. All state land in this unit is open to mineral entry.

**Fish and Wildlife.** Fish and wildlife habitat is designated a primary use in subunits 2N1 and 2N2. They are prime-rated habitat for moose, furbearers, and black bear (A-2 habitat; see Appendix A, *Glossary*).

**Forestry.** Forestry has been designated a primary use in Subunit 2N2, a small unit of upland hardwoods.

### MANAGEMENT GUIDELINES

Management guidelines that apply to all state land are listed in Chapter 2. Some or all of those guidelines may apply to uses in this unit.

**Traditional Uses.** Traditional fishing, hunting, and harvest of other resources for personal use is one of the principal uses of state land in this unit. Decisions to authorize land use activities will consider the effect on and minimize significant conflicts with traditional uses of fish and wildlife resources.

#### LAND-USE DESIGNATION SUMMARY MANAGEMENT UNIT 2N: *Tatalina River Valley*

Subunit	Primary Surface Uses	Secondary Surface Uses	Subsurface <sup>1</sup>	Prohibited <sup>2</sup> Surface Use	Comments
2N1	Wildlife habitat		Open	Land disposals Leases Remote cabins	
2N2	Forestry Wildlife habitat		Open	Land disposals Leases Remote cabins	

<sup>1</sup> Subsurface designations refer to locatable minerals. All areas are available for leasing for leasable minerals, except as noted for coal.

<sup>2</sup> Other uses such as material sales, land leases, or permits that are not specifically prohibited may be allowed. Such uses will be allowed if consistent with the management-intent statement, the management guidelines of this unit, and the relevant management guidelines listed in Chapter 2.
