PHONE: (907) 561-2020

OFFICE OF THE COMMISSIONER

PLAN ADOPTION

The Department of Natural Resources and the Department of Fish and Game have cooperatively prepared the Matanuska Valley Moose Range Management Plan. The Department Commissioners find that this plan meets the requirements of the following Alaska Statutes and Titles:

AS 38.04.065 (Land use planning and classification),
AS 38.04.910 (Definitions),
AS 16.20.340-.360 (Act creating the Matanuska Valley Moose Range), and
11 AAC 55.010-030 (Land planning and classification).

This plan establishes policies that will guide land uses which both DNR and ADF&G must either permit or review. Both DNR and ADF&G adopt this plan and will use it as guidance when implementing agency authorities under Titles 16 (Fish and Game), 38 (Public Land) and 41 (Public Resources) of the Alaska Statutes. DNR and ADF&G will continue to cooperatively manage the Matanuska Valley Moose Range.
